

TimePay Coin (TPC)

The first cryptocurrency where TIME = VALUE.

1 TMC = 1 second online.

You earn more the longer you stay connected. Powered by PoTC.

PoTC: Proof of Time Commitment

- Online presence = Time Mining Credits (TMC)
- Every second = 1 TMC
- Verified hourly by Time Oracle
- Honest uptime earns rewards

ChronoChain Blockchain Structure

- Time-based circular architecture
- Blocks created every 15 minutes
- Validators selected by Time Score
- Transparent and immutable block data

Block Format Example

- timestamp: 2025-06-20T15:00:00Z
- validators: [Node#123, Node#456]
- TMC distribution: {Node#123: 500 TMC, ...}
- timehash: time-linked cryptographic signature

Emission Overview (10-Year Plan)

Total Supply: 2,625,000,000 TPC over 10 years

Decreasing annually to increase scarcity:

Year | Annual | Daily | Hourly

1 | 525M | ~1.44M | ~59.9K

2 | 420M | ~1.15M | ~47.9K

3 | 315M | ~863K | ~35.9K

4 | 262.5M | ~719K | ~29.9K

5 | 210M | ~575K | ~23.9K

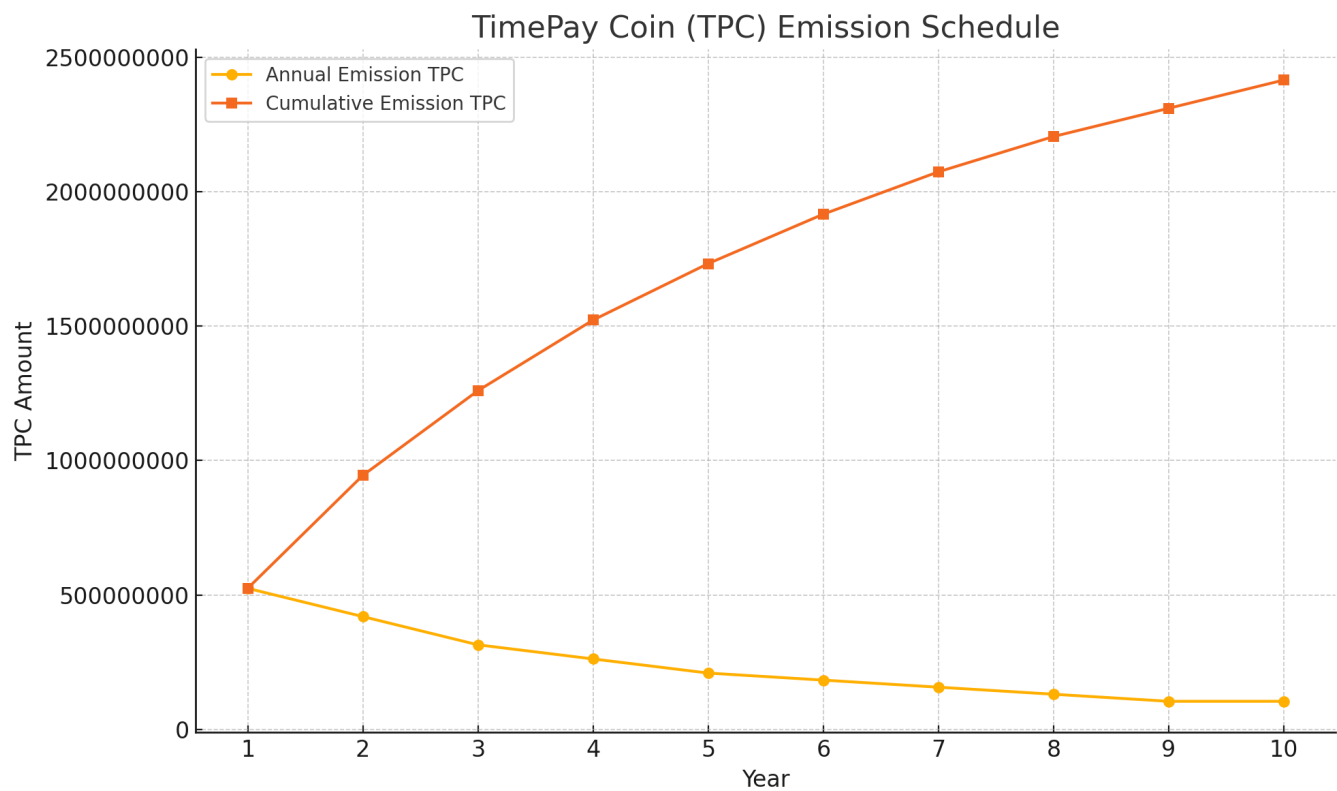

6 | 183.75M | ~503K | ~20.9K

7 | 157.5M | ~431K | ~17.9K

8 | 131.25M | ~359K | ~14.9K

9 | 105M | ~287K | ~11.9K

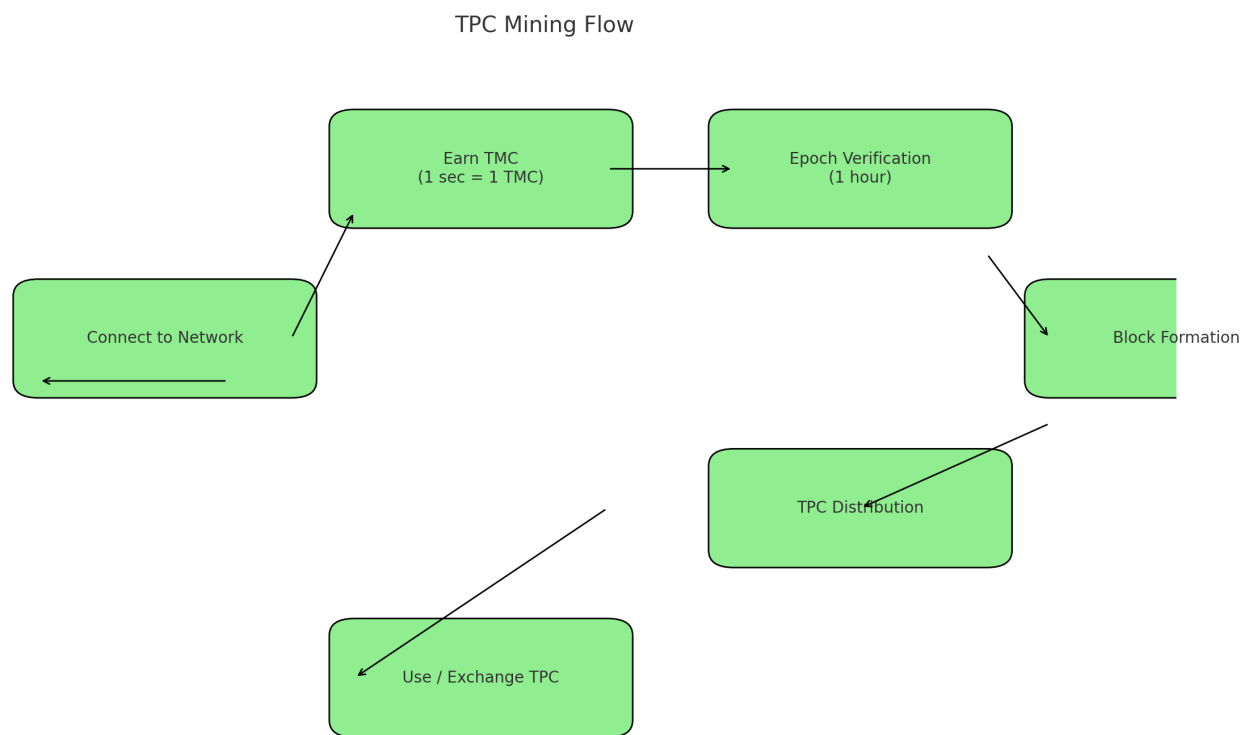

10 | 105M | ~287K | ~11.9K

Use Cases

- Subscriptions (video, SaaS)
- Rentals (vehicles, equipment)
- NFTs with expiry or evolution
- DAO governance via uptime
- Streaming micropayments

Mining Cycle Flow

Reward Distribution Logic

$$TPC = (Your\ TMC / Total\ TMC) * Hourly\ TPC\ Pool$$

Fair, automatic, secure, and efficient

Why TimePay Will Lead

- Fair participation without mining rigs
- Use your time as capital
- Transparent rewards and emissions
- Designed for real-world adoption
- Time becomes decentralized value

TimePay - Where Every Second Counts

TimePay Coin (TPC) is more than crypto.

It's a time economy.

A system where your uptime becomes your capital.

Join early. Earn fairly. Shape the future.

TimePay Coin (TPC) - Presale Opportunity

Join the future of crypto where $\text{TIME} = \text{VALUE}$.

Invest early in TimePay Coin and become part of the first time-based blockchain network.

Presale Details

- Total Supply: 2,625,000,000 TPC
- Presale Allocation: 50% (1,312,500,000 TPC)
- Presale Price: \$0.10 per TPC
- Listing Price: \$0.50 per TPC

Presale buyers benefit from a 5x price advantage at listing.

Why Invest in TimePay?

- First cryptocurrency where mining is based on time, not hardware
- Transparent emission and real-world utility
- Strong roadmap, unique use cases (subscriptions, rentals, DAO, NFTs)
- Presale investors gain early access to a scalable, innovative model

This is a rare opportunity to be part of a new paradigm in decentralized finance.

Invest in Time. Invest in the Future.
